## Explanation of the Gas Meter.

Each division on the right hand circle denotes 100 feet, and on the center circle, 1,000 feet, and on the left hand circle, 10,000 feet. To take a statement from the meter, begin at the left and set down the *lowest* figures next to the hands on the hands on the circle, which in the diagram are 3, 2 and 3; showing the statement to be 32,300. If at a former observation the hands were at the *indicated* lines, the statement then was 20,200; and the difference between the two statements is the amount of Gas consumed—Viz. 12,100 Cubic feet.
