The New York parties offer to rent the Library Building on a lease of Ten Years at \$4000 per Annum they to be permitted to make such changes & alterations (at their own expense) to the Building as may adapt it to their uses; the Building at the expiration of said lease to be Returned as it then stands The Library Co. to pay Taxes Insurance on the Building & Water Rates

The alterations will not change the exterior of the Building except they will put large lights in the windows and Entrance under the present steps to the Basement and an Entrance to the first floor in the Union Library Street where the large window is in the back room. I suppose so of the front

The main alterations will be in the Interior taking down some of the partitions changing the stair case some what to the second story flooring

A vertical grayscale calibration bar consisting of 11 rectangular steps of varying shades, ranging from pure white at the top to pure black at the bottom. The steps are used for color and brightness calibration in printing and imaging.

on the second floor & fitting it
up for the needs of a large Publication
House. The estimated expenses
are between \$6000 & \$7000 - and
will be substantial & permanent.
Thus they say is their ultimatum.
I have no doubt that I can
have the present assessment
reduced to \$50,000 from \$60,000
which I understand it now is.
In fact I think \$6,000 to high & it
can readily be reduced.

An Early answer will be obliged
as the parties are thoroughly respon-
sible in every particular.

Very truly Yours &

S. Kingston M'Cay
