

LANCASTER HALL

GERMANTOWN.

ON THURSDAY AND FRIDAY EVENINGS,

June 18th and 19th, 1863, at 8 o'clock,

THE WONDERFUL STEREOPTICON!

Exhibited, for Fifteen Successive Weeks, at the Assembly Buildings.

This is a Novel and Intellectual Entertainment, which has received the Unqualified Approval of Distinguished Scientific Men, Travelers, Clergymen, Teachers, Artists, and Savans, being pronounced

ARTISTIC!

INSTRUCTIVE!

AND MOST

ENTERTAINING!

And Without an Equal as an Educational and Refining Influence. By the aid of the Stereopticon, a New and Powerful Apparatus, Tiny Stereographs or Sun Pictures from

NATURE or ART

ARE MAGNIFIED FIVE THOUSAND TIMES, presenting

Gigantic Stereographic Pictures,

Illuminated by the most Powerful Light known to Science.

Scenery, Landscapes, Marine Views and Objects, Ancient Ruins, Architecture, Human Figures, Animals, Birds, Flowers, Paintings, Ornaments, Ancient and Modern Statuary, Groups, &c., &c.

AMERICA, EUROPE

AND THE

HOLY LAND

Are re-produced with almost magical accuracy; the details of the objects being brought out with a delicacy, perfectness, and faithfulness to the originals truly marvelous, at which from one to ten thousand can look at once, as they would at the actual scene.

The Resources of the Stereopticon are Endless
