

Prisoners which were not made in the "Great War" were made on their own of whom, it is to be hoped, will not with impunity if they who their papers demand.

**NEW WAY TO INCREASE THE ARMY.**—The Baltimore-News-Record of the Atlantic City-ed says that a rule has just been adopted by Gen. Bragg, and issued to the army, which, more than any other, promises the good result so long and effectually sought to be accomplished by other means—namely, the increase of the army. It has been reserved to one of our Colonels, W. F. Grey, of the Hampton Legion, of South Carolina, and through him Gen. Jenkins, his brigade commander (now commanding Hood's division), to devise a plan which has superseded the necessity of other legislation, filled their own commands appreciably to the usual maximum, and been productive of the best results. The same system has been now adopted by Gen. Bragg, and under date of October 16th, he issues a general order, of which the following is a copy.

**Bragg's Army of Tennessee.**  
**Musgrove Ridge, Oct. 16, 1864.**  
**General Order No. 167.**  
 To all the strength of the army, and to give to our brave soldiers an opportunity to visit home and provide for their families during the coming winter, the following rule is adopted:

1. A furlough of not exceeding forty days will be granted to every man who has been in the service for at least six months, and who is a recruit for his company.
2. The recruit must be received and mustered into service and be doing duty in the company before the applicant can be furloughed as forwarded.
3. In all applications made in pursuance of section first, the commanding officer of the company will certify that the applicant has obtained an approved recruit who has been mustered into the service, and is present with the company doing duty.

**Flour for Sale.**—The liberal offer of Messrs. Tardy & Williams to sell flour and meal, sent to them without charge has not brought in one barrel of flour or one sack of meal, except the hundred barrels of flour sent to them last week by Messrs. Hall, Greenhaw & Co. Have the *Union* *free* applicants and the farmers determined to make any economy?

**The first Sale of Money.**—Messrs. d'Orville & Co. were on duty at the corner of Cary and 11th streets, has been fixed up for the distribution of the supplies of flour, meal, etc., which the agents of the City Council may succeed in procuring from the country. We hope they will soon be able to announce operations.

**Ball To-morrow.**—The ball of the Richmond Fayette Artillery will take place to-morrow at the First Market Hall. The main object in getting up this ball is to raise a fund for the benefit of the members' families, many of whom are in needy circumstances. The most conscientious citizen can contribute to this object by purchasing a ticket, and afterwards destroying it. The ball, however, will doubtless prove a pleasant affair to those who attend. The members of the corps will be present, and will see that no cause of dissimulation arises.

**Battalion Drill.**—The Chicks in the several Departments were marched to a field near Hollywood, yesterday, and drilled in battalion evolutions. They seem to take much interest in the exercise, and will find it beneficial to their health.
