

Albion County Sep 20th 1888

Sir

Your favour of the 4th August is now before me - The Book you mention with many others I was favoured with while in Philadelphia

I apprehend it must have been misplaced or by my servants, returned with Books borrowed at other Places while I was there as I can obtain no information concerning it -

So pleased to favour me with its Price which I will immediately remit, and shall not consider myself discharged of the Obligation I am under until I can also replace the Book in the Library which I shall do with the first opportunity of procuring it

Yours very truly

Luther Martin
