

# “GUNPOWDER, CANNON AND PROJECTILES!”

**Prof. ROBT. A. FISHER,**

(OF NEW HAVEN, CONN.,)

Has been engaged to deliver, in

**SANSOM ST. HALL,**

**On Monday Evening, March 31st, 1862**

His Great Popular Lecture upon these Engines of Modern Warfare, illustrated by Brilliant

**CHEMICAL EXPERIMENTS, ACCURATE MODELS,**

AND  
**FULL SIZED DIAGRAMS ON CANVASS.**

The Lecture gives Authentic descriptions of

**GUNS, HOWITZERS, MORTARS, RIFLED CANNON,**  
AND  
**THEIR PROJECTILES.**

It is one of the most interesting, and practically valuable, that we have had for years; and conveys a vast amount of just such information as is wanted upon subjects with which the public mind is now so much engrossed.

## OPINIONS OF THE PRESS.

“Models, Specimens, and Diagrams, make clear all the mysteries of Guns, Howitzers, Mortars, Rifled Cannon, and Elongated Projectiles.” (*N. Y. Observer.*)

“It is full of popular interest and instruction.

“The Lecture was received with much applause.” (*N. Y. Evening Post.*)

“The Audience were delighted, and we earnestly hope he may be induced to repeat the Lecture.” (*New Haven Palladium.*)

**Doors Open at Seven o'clock. Lecture to Commence at Eight.**

**Single Tickets Fifty Cents.**

**Family Tickets, Admitting Three, One Dollar.**
