

of the august faculty (yes, I was there!) went to China town for a real Chinese dinner. Having lived thru borch I thought lotus root would not kill me. Needless to say it did not. But it was certainly fun - I ate the whole meal with chopsticks! And what's more? was full when I stopped. Of course there was some embroidery on dress, napkin, & table when I was finished but we'll omit the thought of that. After gorging on 6 different kinds of goo we went to hear Cornelia Otis Skinner - fine!

You should have seen me the last two weeks wrestling (yes, literally) with the 1st, 2nd & 3rd grades! Phew! One day I had them all alone! The rest, thank God & Master James I have had a very able assistant (she does most of it) in the mornings. I am not going in for nursery school work for my career!

One more word of advice - do, don't buy too many bears!

Remember me to Libby. Not that she knows who I am, but that's all right, I know who she is!
