PROGNOSTIC ASTRONOMY—ASTROPHRENOLOGY—Public attention is urgently solicited to these Sciences, as practiced on Moral and Christian principles, by **DR. L. D.** and **MRS. S. D. BROUGHTON**, who, by minute investigation and large practice for the last ten years, are enabled to introduce before the public the art of delineating HUMAN CHARACTER, by the position of the HEAVENLY BODIES, in a more scientific form than has ever yet appeared.

"I tell thee, That is not governed by the stars above us, The blood that fills our veins, in all its ebb And flow, is swayed by them, as certainly As are the restless tides of the salt sea, By the resplendent moon; and at thy birth Thy mother's eye gazed not more steadfastly On thee, than did the star that rules thy fate, Showing upon thy head an influence Malignant or benign."

When practised by honest and intelligent persons, this method of defining human character will be found vastly superior to every other mode, and entirely divested of all the cant and sophistry with which this useful and Heavenly science has been hitherto encumbered by its Professors. **DR. L. D.** and **MRS. S. D. BROUGHTON**, Professors and Teachers of Prognostic Astronomy and Astro-phre-nology, have great pleasure in announcing to the admirers of these sciences, that they may be visited at their residence, No. 353 North TENTH St., below Callowhill, where they will be happy to give attention and such advice as their long experience in accordance with the Holy Scriptures, may render necessary.

Persons wishing to test the truthfulness of these Sciences, heads of families requiring a profession, trade or calling for their children, and all those who make the nature of things and moral unity their study, will derive much benefit by consulting **DR. L. D.** or **MRS. S. D. BROUGHTON**, who will practically illustrate the ELECTRIC PHENOMENA of the PLANETARY ORBS, as displayed on the CHARACTER OF MAN, in his moral, mental and physical capacities, specially pointing out the nature and qualities of the mind; the constitution of the body, as regards health and disease; the mental and corporeal affections, and their influence on individual prosperity, marriage, profession and trade, mercantile speculation, and the probability of rising in short, ample as the nature of personal talent and power necessary to be known, can be faithfully illustrated by these incomparable Sciences, the knowledge being deduced purely from the position of the Heavenly bodies, (at the time of birth,) which, according to the Sacred Writings, were placed in the Testament by the Great Omnipotent, for signs, for seasons, for days and years, to shine upon earth, to rule the day and the night, which fought in their courses against Sisera, and which conducted the Wise Men of the East to the birth-place of our Saviour.
