The above Manufacturers are practical Mechanics, having been a number of years engaged in this particular branch of business, and having selected one of the best minerals ever used as a non-conductor of heat, they feel confident, by having the best materials and workmanship, that they will be able to give entire satisfaction, both in price and quality, to all who may favor them with a call. The Locks on these Safes are of an entirely new construction, and made in such a way as to defy the burglar's ingenuity. Orders for City and Country will receive prompt attention.
