

W. Hawle presents his respects to the
Directors -

Having just returned from the
Country he has found one of his
children so much indisposed as to be
unwilling to leave him this evening
which prevents his attending at the board.

Being engaged in several causes which
are marked for trial on Monday next, he
requests the Directors will be good enough
to appoint somebody, who may act in his
place at the election, if he cannot attend.

If the trials should not come on, he
will be there.

Saturday night.
