

The obstinate leak in the roof of the
Ridgway Norand building has been remedied

On the 28th vis. an International
Conference of Librarians will be held at Boston.
As I attended the last one I told Mr. Abbott
that, if the Board approved he might go in
my place, He does not care to do so and I
therefore recommend that Benjamin P. Owen have
leave of absence to attend the Conference on
behalf of the Library. I particularly wish him
to study the most approved methods of classifying
books so that a record can be kept not only
of what each member has but of where every
book is. Mr. Owen's indefatigable labor during the
past year & his zeal & efficiency entitle him
I think, to some relaxation.

In Motion of the Members, it is decided to not
deem it expedient to elect to
recommend an L. M. Owen for
seat to Bank or holder of the
Lib.
