**HISTORY OF GENERAL LYON—**  
In behalf of the relatives and friends of the late General Lyon, I will take this opportunity to inform the public that the letters, journals and private papers of the General have been placed in the hands of Dr. Ashbel Woodward, of Connecticut; and that a faithful history may be expected from him early in the coming year.  
Other histories or sketches of the General which have been announced as forthcoming, will be more or less unsatisfactory: for the documents necessary for a complete history have only been entrusted to Dr. Woodward.

GEN. LYON was a man of true moral courage. He never would recognize the code of the duelist. It is said he was once struck in the face, but refused on religious principle from challenging his adversary. This subjected him for a time to the contempt of his fellow officers; but long before his death they learned to understand and respect his position on this subject. No one now can doubt his bravery.
