

Compliments of A.D.

ROOT & CADY,

CABINET ORGANS.

CONGRATULATE you on the introduction of a new musical instrument, long wanted, and sure to find its way into every household of taste and refinement.

A VERY efficient church organ, brought within a small compass, not easy to get out of order, and sold at a low price.

BEST of their class of which we have any knowledge. MORE THAN TWO HUNDRED EMINENT ORGANISTS.

IN every respect far superior to everything of the kind I have seen, whether in Europe or America.

NEVER have seen anything of the kind which interested me so much.

EXCEEDS in my estimation every other instrument of this general class.

THE favorable testimony of nearly every organist or pianist of note in this country, together with that of certain distinguished foreign authorities, has forestalled our appreciative comments upon the excellence and value of these carefully made instruments. NEW YORK WORLD.

ONE hearing them will satisfy the most skeptical that they are just what the church has been waiting for.

RALLY very effective and beautiful instruments.

A RAND accompaniment when the congregation sing.

G compared with Melodions, Harmoniums, &c., the Cabinet Organ is certainly superior in quality and volume of tone, while its power of expression can hardly be too highly praised.

A EXT to a church organ, and that a good sized one, the best instrument with which we are acquainted to accompany church song.

NEW YORK MUSICAL REVIEW.

SURPASSES everything in this line I have seen, whether French or American.

Made only by MASON & HAMLIN, Boston.

In plain or elegant Cases, with one to twelve Stops.

A NEW METHOD FOR THE PIANO-FORTE.

THE MUSICAL CURRICULUM

BY GEO. F. ROOT.

THIS is emphatically a new book in a new field. It provides instruction and music, not only for the PIANO-FORTE, but also for the things that should be studied with it, viz: the VOICE and HARMONY—not harmony through the eye, but harmony through the ear; not dry calculations, but living and beautiful forms. It goes on the plan that the pupil should know as well the chords and harmonies he is in while playing and singing, as he does the key or kind of time; and moreover it proves that these things can be done by preparing well for each subject, and then by adapting the instruction, and the music to the state of the pupil, and making the steps succeed each other in true progressive order.

The whole book may be divided into two kinds of lessons—the one for *musical* culture and the other for *muscular* culture. Not that there is no practice for the muscles in the former, nor exercise for the musical taste in the latter, but each is devoted mainly to its own object. Those lessons which are designed to awaken, develop, and strengthen a love for music, and with which are imparted a knowledge of time, tone, and expression, (Rhythmics, Melodies, and Dynamics,) are written in many pleasant and tuneful forms, and are called *exercises, pieces, songs, études, suffragios, etc.*,

while those which are simply for the development and strengthening of the muscles of the fingers, hands, and vocal organs, do not pretend to be pleasant or tuneful, but depend upon the benefits they confer in the way of flexibility and execution, for their popularity. These lessons are called *TECHNICS*, and embrace *five finger exercises, scales, arpeggios, and miscellaneous exercises* of many kinds and forms.

The contents of the book may be summed up as follows:

Instrumental exercises for reading music, the acquisition of musical knowledge, and the cultivation of the taste, numbered, but bearing no other names than the topics they illustrate and teach.....	221
Vocal exercises and allegories for similar purposes.....	18
TECHNICS.....	119
Divided as follows—Five Finger Exercises.....	128
Scales, Major and Minor.....	115
Arpeggios, Major and Minor.....	116
