

This little scrap of Wall Paper, was found by me, (marked) in an envelope, in my old Portfolio. It is a piece of the identical wall-paper, with which the beautiful old Green and Gold Room was papered in the old time; the third story front room of the mansion No 1604 Walnut street-. It was put on the walls of the room at the time of the marriage of S. W. L. 1850, who then occupied it. 1850. It was then comparatively new, when I also lived in it after marriage (1851 - 1854/5.).
